obliquum. dicitur secundo primo quod non infinitum nomen est non. et quare non est non uinu
quod est passio explanat aliquid ipsum infinitum et quare dicit quod non in
finitum nomen est non. nec exprimit quod ipsum est eorum omne quod aut est quod
affirmatio vel negatio. Et nota quod infinitum additum sit nominatio ad placitum
ad rationem nominis. secundum ad placitum significat. vnde uero nominis non est non ita in
finito secundum situm. Catonis et cetera. Sicut autem non obliqui non est non et
dicit ratio huius propter hoc quod dicit ipsum non significat verum vel falsum additum ei
verbo cuius modi est. cuius appositum est in nominatiuo et negatio
proprie non obliqui est uero non significatiuarum dicit ipsum hic significatum suum
rei. dicit. non est huius ratio et explicit tamen non sed ipsum non est non eo quod
modus significandi diuersus est et propter hoc non est non et sic tractat de nomine
addita hic in primo cum causa quod sit in ceteris sicut causa quando sit in natura sicut dicit
Aristoteles in fine methaphysice et alibi in physicis. Secundum in nominatiuo ponitur causa principalis
compositionis in natura. scilicet materia et forma et specie. Ergo et in arte ponitur causa principalis
compositionis in arte et uerbum est causa sicut compositio in arte non suffi
nec et uero ad causandum constitucionem. Secundum quod uerum quod se habet per compositionem
in natura. Ad hoc forte puto quod non est quo ad hoc in arte et in na
tura sicut in natura .n. ponitur causa principalis rei generatione quia quod ad
sit receptibile perfectionis et hoc est materia et si sit receptibile perfectionis
est aptum natum habere perfectionem et non habere et sic necesse est priuatio
et item forma per quam est perfecta et sic causa sunt necessaria in natura ad re
naturalem generationem. Sed in ceteris de non est sic non .n. acquirit ad
suppositum tantum in arte et exponitur tantum id quod est in suo propter hoc non est in
disiuncte nec ducatur prima compositione. Sed cum componitur et casus non
diffinitur et hoc uero propter constitucionis orationis utrumque consideratur non in quo
est pars orationis. In dicto propter quod componitur predicationis ponitur
in ratione nominis. Sed aliter uero non. sicut est dubio de uerbo. Ad hoc sic
sicut hic in textu. Sed in modis significandi magis natura sunt se
modis autem sicut casio hac ratione in grammatica comparantur differentiis. Secundum quod dicit
secundum magis sit consequentia sensibus. comparatio uero magis nocta est sensui quam sicut
propter hoc diffiniunt in grammatica differentias in comparatione ad comparatum et sensus sic
ad oratio. Aliter dicitur est differentia per genus et differentiam. Genus uero nominis et uerbi est
uox. uox .n. significatiua est quod uocis. propter hoc ponitur uox in diffinitionibus aliarum in
ratione nominis et uerbi. Sed uero quod hoc uero dicit uoce non significatiua uox .n. non
significatiua significat cum quo hoc dicta uox significatiua comparatur et quod non est uox
significatiua et sic dicitur aliter dicitur non est diffinitio hic assignata soli nominis. Item
Ad hoc sic quod significatiuum dicitur dupliciter. uno modo .n. modo dicitur significatiuum quod dicit per se significat
eam ipso scilicet et sic est uoce non significatiua. Alio dicitur significatiuum dicitur per se
significat post ipso scilicet et sic est tamen uoce significatiua. Hic dicit modo ponitur per se in
ratione nominis. Sed quod est propter quod non est uox significatiua secundum placitum et non secundum uo
luntatem cum sit idem placitum et uoluntas. Ad hoc sic quod placitum et uoluntas
in hoc differunt quod uoluntas respicit actum uoluntatis et intentionem in re extra. placitum uero est
non quod propter tamen dicitur. uolo hic et placet mihi hic. quia secundum modum sunt extra re
imponere nomen. propter hoc dicit quod non est uox significatiua ad placitum et non secundum uoluntatem
Sed uero quod omne non significat cum tempore. sic .n. dicit Aristoteles alias nec intellectus
est cum continuo et tempore. quia intellectus rei nominis intellectus cum continuo et tempore
secundum sic intellectus sit significatus ergo quod significatus per nomen significetur cum continuo et tempore
quod omne nomen significat cum continuo et tempore. Ad hoc sic quod illa pars orationis dicitur cum
tempore significare cuius significatum est mesura. tempus autem est mensura motus sicut
dicit Aristoteles in quarto physicorum. propter hoc illa pars orationis quod motum significat di
citur cum tempore quod abest a nomine. puto quod hic est expresse intelligencius et non
exprimet rei intellectum. Sed quare adiicit adeo dictum non significatiua in diffinitione non
et sic dicitur quod ad dictum uocis non significatiue et hoc ut sic quod nulla uox
est non significatiua quibus .n. uox significatiua sit uero quia bubal significat bubal
et sic de aliis quod omnis uox aut eius est significatiua et ita significatiua. Ad hoc sic
significatiuum .n. est quod sic accipitur secundum. ad representandum intellectum quod non omnis est significa
tiua nec significatiua quod solum uox significans sic quod non est significatiua cum
delinquat ad intellectum. Sed sic quaeritur quare non exponit hanc dictionem
sine tempore. eius expositum alias dictas in ratione nominis. Ad hoc sic quod per
non comparatur per natura. hic autem quod est sine tempore est priuatio huius dicit quod est cum tempore
propter hoc non exponit hanc dictionem. Hic dictam cum tempore exponit eius priuatio per
modus. Sed quare cum in nomine sit duo. uox et significatio. uox autem a natura est
et significatio a uoluntate propter quod dicitur quod nomen est secundum placitum magis quam secundum
naturam. Ad hoc sic quod forma dat esse. quia propter hoc forte. Forma quod est aliquid
in intellectu id quod est. significatio autem est prefectio nominis quod dicitur ad placitum. propter hoc
non est ad placitum per quam a natura. Item diffinitio non contineat omni no
mini. nomen .n. conuenit cui nomini quod sit uox significatiua sine tempore. hic .n. nomina dies
annus mensis et huiusmodi non significant sine tempore sed cum tempore quare non conuenit
eis hic predicabilis sine tempore sed cum tempore. Item et hoc diffinitio nominis non conuenit omni
nomini. Ad hoc sic quod ratione nominis talibus nominibus conuenit eo quod hic nomina
non consignificant tempus comparatiuis significare. nomen .n. philosophus hic significare tempus et cum
eis conuenit cum dicta diffinitione. vnde sic debet exponi. uox significatiua sine
tempore hoc est uox sine consignificatione temporis. Ulterius autem consignificat tempus. Sed dicitur
hoc quod dicit partem nominis compositi separatim non significat. Hic non est. Quod pars
dicit omne compositum et resoluitur in duas partes in eius partes
componentes et sic uidetur quod significatio nominis compositi resultat a significatione partium
componentium quam cum idem semper manent in composito quam in componentibus id
significat pars in composito cum separata sit et tunc quaerit quod hoc dicitur ferus
separata significat ad significandum cum dicitur equiferus. Ad hoc forte puto quod
non negat Aristoteles partem nominis compositi ab significatione secundum dicit quod per se non significat
ferus in hac dictione equiferus quemadmodum in hac oratione equus ferus et hoc forte
uerum est. eo quod cum dicitur equiferus utrumque interpretatur dictum hic sicut signatum
distinctum a significatione alterius et consequentes suas habet per se. Sed cum dicitur
equiferus tantum tendit tamen ad significationem vnam non hic aliquam partem com
positi precedit est alia pars componentium significationis componens se et sic non significat aliquid
ferus quemadmodum in oratione. Sed uero quod non possit dici una sed componens
quare sit sic hic significatum vnum ad suum significatum sit ad significatum ad
suum significatum se habebit. Secundum significatum huius dicitur est similiter significat huius ferus
et accidens. Compositum et accidentia non sunt sed vnum eo quod rectus
appetitus habet simpliciter quam ex eorum significans non vnum quam non vnus
dicto. Ad hoc sic quod est sumere accidens dupliciter. Superius .n. accidentia
secundum abstracta est eo utitur eius diuiso secundum nominem suum et suis et
sic ponitur in numerum cum eis qualitatis .n. quantitas et aliter res quam
sunt. sic autem superius accidentia non est ad vnum ex ipso et sunt
alio modo superius accidentia secundum quod nominat quendam aut ... sub re et sic
non ponitur in numerum cum illa secundum quod hic componitur. quod Sortes et Sortes

coniunctione plures, quia oratio plures non est species enunciationis, quia non nominatur dico genus in species. Preterea non dico dico tamen in predicatis quam nullum totum integrale per se de sua parte. Sed enunciatio est de enunciatione una, ergo enunciatio una non est per se enunciationis, et sic non est hec divisio divisio totius in partes. Et non dico vocis in species, eo quod hec prima enunciatio una est et prima plura secundum quod non est divisio vocis in species. Ad primum sic dicendum quod uno modo est oratio una, et alio modo non unum, nam dicitur esse unum idem ut secundum eius differentiam que est thesis. Unum est ens in se indivisum et ab aliis divisum, et hec divisio propter formam cum materia et sic omne quod est est unum, et in hoc est secundum non sunt unum in re cum isto. Oratio est in [illegible] hec propositio, omnis propositio est propositio una, et hec ita nulla propositio plures est propositio una. Alio modo dicitur unum cum suo opposito quod complexa [illegible] que sunt secundum quod contra multa est multa cum alia re, et secundum quod unum sunt non dicitur quod omnis est propositio una, nec quod omnis propositio est plures, sed tamen est una omnis propositio illius. Ad secundum sic quod hec est divisio vocis in species, non non solum divisio sed divisio vocis in species quam divisio eius primo secundum dicitur. Sed in quam per prius dicitur de uno dicendum et per posterius de reliquo, unde hec divisio est tamen ad sua accidentia dicitur et vocis in species, quam enunciatio per prius dicitur de sua et per posterius de accidentibus eo quod accidentia non habent esse nisi per suam et ita per ad. Ergo [illegible] quod enunciatio dicitur per prius de enunciatione una per posterius de illa que est plures, et aliter hec divisio enunciationis in unam in plures nuncupata est predicatio vocis in species. Sed dicitur quod quod dicitur quod enunciatio una est que unum de uno significat vel coniunctione una de quo aliquid dicitur, [illegible] dicebatur enim una coniunctione enunciatio una. Ergo illa enunciatio que est una coniunctione est enunciatio plures et non una. Similiter
q
est quod quod dicitur quod illa est una que significat unum de uno vel coniunctione. Ad hoc dico quod una coniunctione dicitur duobus modis. Coniunctio enim dicitur duobus modis una, uno modo dicitur coniunctio propositio una casus et sic dicitur omnis illa una coniunctione que est una ab unitate copulationis vel coniunctionis. Alio modo dicitur illa est coniunctione una que quantum est in se quoad [illegible] in subiecto vel in predicato cum tamen ex ipsius pluribus sit unum quam illa propositio est una in qua unum subicitur et unum predicatur vel in qua plura sunt in subiecto vel in predicato coniunctio est unum vel utrumque. Nunc primo modo est oratio plures quam una est coniunctione, secundo modo quod est una coniunctione significat unum de uno et est una. Sed quia quod enunciatio dicitur coniunctione una dicitur enunciatio unius. Ad hoc forte posuit aliquis quod ipse intelligit enunciationem coniunctione unam disiunctivam et conditionalem, quod et conditionalis sit una, sic patet per se significat enim unum de uno sub conditione, omnis enim enunciatio que unum de uno significat est una, omnis conditionalis est talis ergo etc. Sed omnis disiunctiva est una quod sic probatur, dicendum propter quod hec natura disiunctiva enunciatio quod est medium quod disiungit simul esse non potest. Sed sic disiungit inter duo accidentia respectu unius subiecti vel inter duas substantias respectu eiusdem accidentis vel inter duo accidentia et duas substantias. Si enim disiungit inter duo accidentia respectu eiusdem substantie cum non natum est quod disiungit simul non esse, necesse est de necessitate illa duo accidentia non simul inesse substantie, sed alterum tamen, quare medium est quod omnis disiuncta in qua fit disiunctio inter duo accidentia respectu eiusdem substantie unum de uno significat, quare omnis talis una. Similiter disiungit inter duas substantias respectu eiusdem accidentis, quod natum est medium quod disiungit simul non esse, significat de necessitate quod ille due substantie inter quas disiungit non sit participare actum designatum per predicatum, quare non nisi una sola substantiam eius actum potest participare. Ex hoc relinquitur quod omnis disiunctiva in qua fit disiunctio inter duas substantias et duo accidentia disiungit inter duas omnes et eo quod natum est medium quod disiungit simul non esse significat solam unam omnem esse, itaque relinquitur una ita. Cum ergo natum est tamen una omnino non medium quod disiungit esse, significat tamen per totum universaliter in esse. Illo ergo quia omnis disiunctiva in qua fit disiunctio inter duas substantias vel duo accidentia tamen unum de uno reperitur quare omnis talis una, ex hiis ergo colligitur quod omnis disiunctiva est una. Propter quod dicendum ut prius tactum est dicitur coniunctione una copulativam quod significat plures et quod sic aperte patet, copulativa coniunctio natum simul esse simul et esse non ad unum solum sed plurium quare natum plura simul esse ita ut plura accidentia et eidem substantie ut dicitur per [illegible] et sic significat quod hoc plura de uno ut cum dicitur Sortes est et disputat, vel plures substantias natum simul participare idem accidens ut cum dicitur Sortes et Plato currunt, et tunc significat unum de multis, vel plures substantias significat participare plura accidentia et tunc natum plura de pluribus et tunc et plures magis [illegible] copulativa et tunc [illegible] [illegible] plures, [illegible] dicitur non est [illegible] enunciatio et sunt [illegible] [illegible] nulla [illegible] [illegible] [illegible] et eius enunciatio est [illegible] quia nulla enunciatio est simplex. Ad oppositum quelibet

enunciatio est unum minimum et simplex quod non potest resolvi in simpliciora sicut genus quod ergo enunciationis est alia enunciatio simplex quia nulla sit simplicior, quare est aliqua enunciatio simplex. Ad hoc sic sicut hec simplex et composita ad eius simplicis, supera et sic sit simplex, habuit simplex et compositum in genere, accidens in genere secundum quod simplex et compositum dicuntur eius simplicis, ut hoc sit una dicio entis. Eius ad unum ad simplex dicuntur eius simplex et compositum in genere dicuntur eius in genere, et ita in genere est compositum enunciationis, et simplex in genere est enunciatio simplex et composita enunciatio composita que est enunciatio dicitur in simplicem et compositam. Et forte puto quod hec vera est quibus enunciatio dicitur simplex et non sic inter ea dicitur est in simplicem et suo genere et tamen non omnis enunciatio est composita per [illegible] est tamen simplex in suo genere, hec nomen est simplex in genere quod est simplex sic ista est magnus [illegible] secundum quod magnum non est [illegible] hec signis est in ista [illegible] sicut [illegible] et quam deinceps est [illegible] in [illegible] principium. Sed dubitatur tamen enunciationum compositarum que sunt composite ex simplicibus, que composite ex simplicibus, et conditionalis, copulativa et disiuncta, utrum ante vel post, vel utrum copulativa vel utrum disiuncta quia non sic dicitur sic compositum enunciationem que est composita ex simplicibus. Ad hoc sic quod hec est quia composita ex simplicibus quia composita ex compositis eadem in genere quod dico compositum et est quia hoc eo quod [illegible] et hoc non est in [illegible] [illegible]. Sed quod est et est quia [illegible] [illegible] [illegible] ad illa que precessit enunciatio una que plures et non una differentia hec [illegible] ad illa que [illegible] enunciatio una ea quod eadem sunt [illegible] et [illegible] hoc tamen omnis enim [illegible] enunciatio una ea quod eadem sunt divisa et [illegible] quod eadem est omnis tamen precedens est simplex et composita et omnis composita plures et eas quod eadem est omnis enunciatio una. Ad hoc sic quod non sunt eadem [illegible] dividuntur non enim est omnis enunciatio una simplex cum conditionalis sit una non sit simplex nec composita quia multiplex [illegible] simplex quod hec sunt simplex, unde simplex non est una, nec omnis plures composita sed quod hec sunt simplex nec composita est conditionalis non sit plures sed [illegible] eadem ratione nec composita, et [illegible] [illegible] [illegible] non [illegible] quia omnis non [illegible] est [illegible] et composita quia [illegible] composita disiuncta [illegible] et omnis hec [illegible] est non [illegible] et omnis [illegible] est simplex sed sic quod hec est simplex in re forte [illegible] et est [illegible] non [illegible]. De [illegible] tamen dicitur est enim composita et [illegible] quod sit [illegible] est enim [illegible] vel [illegible] [illegible] [illegible] et omnis [illegible] [illegible] ad [illegible] [illegible] ad alio ut [illegible] eadem differentia et [illegible] quod est [illegible] et quod de eo est [illegible] et [illegible] [illegible] [illegible] et [illegible] est [illegible] ad [illegible] est [illegible] [illegible] [illegible] [illegible] et [illegible] [illegible] [illegible] et [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] et [illegible] [illegible] [illegible] [illegible] hec [illegible] quod [illegible].

Quoniam autem est enunciare. [illegible] [illegible] illa [illegible].

requiritur ad appositionem sicut affirmatio et negatio. dicendum quod non intendit de appositione sicut nunc cum de materia est illa in qua subiectum non continetur et est omnis illa in qua predicatur actus multiplicitatis actualis vel potentialis et alienitatis. Sed intendit de appositione in qua predicatur non actus [illegible] ad veram appositionem. Et hic est quod dicit. Dico et appositionem. Cum autem sunt quattuor etc. Hic intendit [illegible]

et aliquis predicatus constat ex quo sunt ea que [illegible] distinctus et affirmatio. Sed exponens nulla sunt affirmativa sed universalis negativa quare non est haec exclusiva necessaria. Solus Sortes est, ergo nullus alius a Sorte est [illegible] ergo [illegible] sit una, non est ergo una quare est plures. Ad id dicendum quod consequentia est necessaria. Solus Sortes est, ergo nullus alius a Sorte est et non est enthymema nec exemplum nec syllogismus [illegible] est necessaria et tamen nulla species ratiocinandi salvatur in eo [illegible] et in eo non sit aliqua species [illegible] sicut [illegible] quod non est syllogismus manifeste est. Enim continet [illegible] praemissa non est syllogismus quod non sit inductio propter [illegible] quod ex particularibus [illegible] quod et non sit exemplum propter [illegible] continet [illegible] non est exemplum. [illegible] praemissa [illegible]. Et non sit enthymema propter et eo quod omne enthymema reducitur in syllogismum ut dicit [illegible]. Et autem non reducitur in syllogismum et sic [illegible] si reducitur in syllogismum hoc est per additionem propositionis [illegible] maioris vel minoris sicut dicit [illegible] quod enthymema est [illegible] syllogismus et deficit in maiore vel in minore syllogismi. Nulla autem propositio [illegible] addita [illegible] syllogismus [illegible] universalis et praemissa sunt [illegible] non concluderetur syllogismus [illegible] quare non est enthymema quare non [illegible] enthymema [illegible] una quare et plures. Ad id dicendum dicit [illegible] in principio libri istius doctrine [illegible] est plures [illegible] alia si [illegible] non [illegible] dicere [illegible] hominem esse album [illegible] esse album quare [illegible] tamen non [illegible] dicere solum Sortem currere [illegible] et nullum alium a Sorte currere. Hec sunt plures [illegible] plures solum Sortes currit. Ad hoc quod forte dicitur [illegible] est una solum Sortes currit et quelibet exclusiva. Ad aliud [illegible] dicitur quod cum dicitur quod exponens sunt affirmativa sed universalis negativa [illegible] albus ergo [illegible] a Sorte est albus [illegible] quod non est syllogismus solus Sortes est [illegible] albus [illegible] non [illegible] de modo [illegible] in hac [illegible] est albus [illegible] est albus [illegible] Sortes est [illegible] a Sorte est [illegible] solus Sortes est. Hec et universalis [illegible] et non [illegible] et praeiacentes illius [illegible] est albus [illegible] et praeiacentes [illegible] non est [illegible]. Ad [illegible] forte dicendo sic [illegible] est quod omnis exclusiva et exceptiva est aliqua una [illegible] tamen una quare illa [illegible] simpliciter unum de uno significat. Et quod omnis species arguendi habet reduci in syllogismum vel in syllogismos [illegible] plures species [illegible] quare non est possibile reduci in syllogismum unum sed in plures. Inductio enim scilicet [illegible] reducitur in syllogismum [illegible] deducta ista inductio in syllogismum hoc modo: Sortes est, Plato est, et sic de singulis, ergo omnis homo est [illegible] est Sortes vel Plato [illegible] currit [illegible] omnis homo est Sortes vel Plato [illegible] reducitur in syllogismum ubi est locus [illegible] reductio [illegible] supra [illegible] reducitur in syllogismum sic: Omnis homo est, ergo Sortes est [illegible] sub [illegible] Sortes est homo et est syllogismus: omnis homo est, Sortes est homo, ergo Sortes est [illegible] homo est, ergo Sortes non est [illegible] sub ipso Sortes est homo et est syllogismus. Difficilius [illegible] in exclusivis et forte estimo quod non habet [illegible] solus Sortes est, ergo nullus alius a Sorte est, reducitur in unum syllogismum et hoc probatur [illegible] reducitur in plures syllogismos [illegible] sit [illegible] unius syllogismi [illegible] alius sit. Omne quod est Sortes est, sed Sortes est homo, ergo Sortes est [illegible] non sit [illegible] quod est [illegible] omissa non [illegible] alio modo quod si [illegible] in praemissa [illegible]
hic [illegible] syllogismus [illegible] concludi [illegible] Sortes est [illegible] omne aliud a Sorte est non Sortes, ergo nullus alius a Sorte est, et sic reducitur exclusiva [illegible] in syllogismos et non in syllogismum. Eodem modo [illegible] quod omnis exclusiva [illegible] reduci in syllogismos et non in syllogismum.

invicte. Secundo quia potentia volitiva velit ad opposita et est potentia solius illa que ex ratione sua ex libertate arbitrii. Potentia autem irrationalis non est ad opposita. Illa enim que est sua in actu non est ad opposita. Sicut potentia ignis est potentia irrationalis et non velit ad opposita. Est enim sua potentia ad calefaciendum et non calefaciendum. Cum enim dicitur [illegible] non sit reddere rationem propter quid ignis calefacit [illegible] est enim [illegible] caloris in aliis aliquis cum sit calidissimus ut [illegible] est in se [illegible]. Dicit quod [illegible] quia non omnis potentia est ad opposita [illegible] irrationalis, et potentia irrationalis est [illegible] non agit [illegible] quod velit ad opposita potentia est [illegible] agat [illegible]. Utrum non [illegible] quod potentia irrationalis velit ad opposita et quod non. Quaeritur de potentia [illegible] quod est [illegible] potentia [illegible] est enim [illegible] quod est [illegible] in actu [illegible]
